Students from Saitama Gakuen University attended the Langley College *Canadian Perspectives in Early Childhood Education* program from March 9th to 13th. The 24 students attend the 4 year ECE degree program at the Japanese university located in the outskirts of Tokyo. The students were accompanied by Professor Hotta and Professor Hagiwara, Chairperson, ECE Department.

The *Canadian Perspectives in ECE* program was developed by Langley College to offer international students a “glimpse” into ECE in Canada. Students heard lectures from well-respected ECE instructors, participated in labs and observed in child care centres throughout Langley.

Langley College ECE students joined the participants on the Friday morning for a music and language circle and cross-cultural exchange.

**TRAIN TO BE A MONTESSORI PRESCHOOL TEACHER**

Meet Merrill Osers, Langley College Montessori instructor.

"Six years ago, the Langley School district boldly initiated a public Montessori elemen-

tary program at Uplands Elementary. I was privileged to start the program for the district. It started off as a small kindergarten/grade one class of twelve students. This year, Uplands Elementary Montessori program has 2 kindergarten classes, three grade 1,2,3 classes and a grade 4,5 class. Next year we will be expanding once again. It has been exciting to see the Montessori program come alive in the public school.

Once again, Langley School

District is breaking ground by expanding its Early Childhood Education Department at Langley College and introducing a Montessori Early Childhood Certificate teacher training program."

Plan to attend the Langley College Montessori information session. Hear about the training, view some of the Montessori materials, and meet our instructor. Merrill's teaching career has included owning, operating and teaching in a Montessori preschool.

Call today to reserve your seat in our free Montessori Early Childhood Certificate information session.
