# college programs

## **Health Care Assistant Certificate Program**

Graduate in seven months and work with adults in home support or continuing care facilities. Embark on a richly rewarding career that offers great security, opportunity and fulfilment.

## **Early Childhood Education Certificate Program**

Langley College has long been a leading educator in early childhood education. This certificate program prepares graduates to work with children aged 3 to 5 in pre-schools and day care centres throughout BC.

## **Early Childhood Education Diploma Program**

As one of the leaders in the field our diploma program establishes you as a professional in early childhood education. Students graduating with a Langley College Diploma receive an Infant & Toddler Certificate and a Special Needs Certificate.

## **Early Childhood Education Workshop Series**

Are you working in family child care or school age child care? This series of 8 workshops meets the Child Care Licensing Regulation training requirements for responsible adults to complete 20 hours of training. Early Childhood Educators may use the workshops towards the 40 hours of professional development required to renew their ECE Certificates.

## **Priorities ECE Conference**

Attend our annual Fall conference. Choose your workshops from several exciting options. Enjoy a break between workshops for refreshments and networking with friends and colleagues. Attendance can be used towards the hours of professional development required to renew your ECE Licence to Practise.

## **InDesign Computer Course Levels I and II**

Introductory and Advanced courses - Learn how to create professional looking brochures, newsletters, posters, flyers and magazines. InDesign Creative Suite is a very powerful software program that combines expert layout with dynamic creative effects.
